Extraordinarily high value

Arno

Arno  
Deluxe

# Arno™ & Arno Deluxe™

The Arno and Arno Deluxe represent a breakthrough for Global in providing two extraordinarily high value leather managerial chairs at an exceptional price. Both chairs were designed to make use of perforated leather upholstery panels, one in the seat and one in the back. This allows air normally trapped in the cushions to escape easily, providing an incredibly soft, yet supportive feel while contributing to overall comfort.

Both models feature perforated leather panels

The Arno Deluxe features upholstered armcaps

### Features common to both models are:

- Perforated leather panels in both seats and backs coupled with Global's genuine leather seating surfaces with mock leather trim
- Tilt/turn mechanism with tension adjustment
- Pneumatic seat height adjustment with single position tilt lock
- Impact resistant molded flared loop arms
- Chair upper fully "factory built," needing only the base, casters, cylinder and cylinder covers attached, packaged in a UPS-able box
- "Full size" design with chair heights (depending on model) of 42" or 43"

In addition to the above features, the **Arno Deluxe** features a "spider" base design with integrated casters and upholstered armcaps..

Both models are available in all standard Global "Grade 7" leather colors. Molded loop arms and bases are available in black only.
